http://austin-carr.org/

WELCOME

This is a Web Site Devoted to The Descendants of Thomas Henry Carr & Minnie Mae Austin

_____

It is also a website devoted to the ancestors of both our fore bearers. David Marrs Rush had done extensive genealogical research into the roots of his clan and his wife's clan (Wilma Juanita Carr Rush). While it is very interesting, in a lot of cases it has generated what feels to be very dry information. It generally consists of names, dates, and places and not a whole lot more. **What if we could create a time capsule for future generations?** They would have a better picture of who we were, rather than a collection of statistics.

Another way to look at this little project is as a scrapbook of family members easily available on the Internet.

The website and the genealogy site are collaborative tools. Sign up to view or use both. The more folks we can get involved, the more fun it will be, the better it will be.

Thanks for your help and involvement.
